## EXPERIENCE

### Senior UX Designer , Microsoft FastTrack

Microsoft(contract) | 📍 Seattle | Oct '19 – Present

Lead organization in UX design and created a system that saved months on change item completion. Designed and developed complex business solutions.

### Senior UX Designer , Application Engineering

CloudFit Software | 📍 Seattle | May '19 - Present

Lead and mentored the organization in UX design while creating design systems, training and designing products for clients. Created a culture of excellent, precise and efficient UX design.

### Director, Young Life Renton

Young Life | 📍 Renton | Oct '14 – March '18

Founded and directed a non-profit chapter to give back to the community. Set budget, raised funds and managed employees while leading volunteers.

### CEO & Founder, Design

Kizuka Technologies | 📍 Seattle | Nov '12 – Oct '14

Founded and lead a technology design business that boasted clients from Microsoft to Pete Carroll. Landed contracts and managed multiple projects.

## MY PHILOSOPHY

Innovation through collaboration

## MOST PROUD OF

### Invented Microsoft Live Design Sessions

Created a system for the collaboration of all stakeholders saving months of design churn.

### Pioneered New Internal Microsoft Tool

Designed a tool to help an internal Microsoft organization onboard customers to their products and services.

### Increased Company Design Collaboration

Hosted a design event with a Microsoft Vice President and key stakeholders to increase design collaboration within his organization.
